

Contents

WORLD GEOGRAPHY

1. Geography as a Discipline

- Introduction to Geography 1-6
- Geography as an Integrating Discipline
- Geography as Relation to Human and Environment
- Development of Geography
- Branches of Geography

2. The Universe and the Solar System

7-22

- Theories about Origin of Universe
- Age of the Universe
- Components of the Universe
- The Solar System
- Other Members of Our Solar System

3. Origin and Evolution of Earth

- Origin of the Earth 23-34
- Theories of Origin of Earth
- Evolution of Earth
- Interior of the Earth

4. Motions of the Earth

35-40

- Introduction
- Types of Motions of Earth
- Change of Seasons
- Summer Solstice
- Winter Solstice
- Equinox
- Solar Eclipses
- Lunar Eclipses

5. Latitudes and Longitudes

41-47

- Introduction
- Latitudes
- Important Parallels of Latitudes
- Heat Zones of the Earth
- Longitudes
- International Date Line (IDL)

6. Rocks

48-53

- Types of Rocks
- Rock Cycle

7. Earthquake, Tsunami, Volcanoes

54-68

- Earthquakes
- Prediction of Earthquake
- Earthquake wave
- Causes of Earthquake
- Types of Earthquake
- Effects of Earthquake
- Tsunami Forecasting
- Volcanoes
- Topography Features of Volcanoes
- Causes of Volcanism
- Parts of Volcanoes
- Types of Volcanoes
- Distribution of Volcanic Belts
- Positive Effects of Volcanoes
- Relationship between Earthquakes and Volcanoes
- Major volcanoes of the World

8. Earth Movements and Related Forms

69-75

- Earth Movements
- Classification of Earth Movement
- Endogenic Movements
- Exogenic Movements

9. Topography or Landforms

76-84

- Introduction to Landforms
- Classification of Landforms
- Landforms formed by Internal Factors
- Landforms formed by External Factors

10. Atmosphere : Composition and Structure

85-90

- Introduction to Atmosphere
- Atmosphere Composition
- Gases in the Atmosphere
- Inert Gases in Atmosphere
- Structure of the Atmosphere

11. Solar Radiation, Heat Budget and Temperature

91-100

- Solar Radiation
- Heat Budget
- Temperature
- Temperature Distribution
- Inversion of Temperature
- Ranges of Temperature
- Temperature Anomaly

12. Atmosphere Pressure and Winds

101-110

- Atmospheric Pressure
- Distribution of Air Pressure
- Pressure Belts
- Atmospheric Circulations
- Winds
- Types of Winds
- Jet Stream

13. Humidity and Precipitation

111-120

- Forms of Humidity
- Phases of Water
- Types of Clouds
- Forms of Precipitation
- Distribution of Precipitation
- Types of Rainfall
- Factors Affecting the Distribution of Rainfall

14. Air Masses, Fronts and Cyclone

121-128

- Air Masses
- Classification of Air Masses
- Fronts
- Classification of Fronts
- Cyclone
- Temperate Cyclone
- Tropical Cyclone
- Anti- Cyclone

15. Climate and Climate Regions

129-134

- Introduction to Climate
- Classification of Climate
- Koeppen's Scheme of Classification of Climate

MagBook

16. The Ocean and Its Properties

- Oceans 135-144
- Hydrological Cycle
- Distribution of Water
- Oceans of the World
- Oceanic Relief Features
- Movements of Continents and Oceans

17. Ocean: Temperature, Salinity Deposits and Coral Reefs 145-154

- Temperature of Oceans
- Factors Controlling Ocean Temperature
- Ranges of Temperature of Oceanic Water
- Distribution of Temperature
- Salinity of Ocean
- Factors affecting Salinity
- Distribution of Salinity
- Oceanic Deposits
- Terrigenous Deposits
- Volcanic Deposits
- Organic Deposits
- Inorganic Deposits
- Coral Reefs
- Condition for Coral Formation
- Types of Coral Reefs
- Importance of Coral Reefs
- Coral Bleaching
- Marine Resources
- Classification of Marine Resources

18. Waves, Ocean Currents and Tides

- Waves 155-166
- Ocean Currents
- Factors Influencing the Origin of Currents
- Types of Ocean Currents
- Currents of Pacific Ocean
- Currents of Atlantic Ocean
- Currents of Indian Ocean
- Effects of Ocean Currents
- Tides
- Causes Responsible for the Occurrence of Tides

- Types of Tides
- Importance of Tides

19. Soils and Natural Vegetation

- Soil 167-182
- Structure and Composition of Soil
- Factors Influencing Soil Formation
- Soil Profile and Horizons
- Classification of Soil
- Soil Conservation Methods
- Soil Degradation Soil Erosion
- Natural Vegetation
- Forest Vegetation
- Deciduous Vegetation
- Grassland Vegetation
- Desert Vegetation

20. Agriculture and Animal

- Husbandry 183-201**
- Agriculture
- Factors Affecting Agriculture
- Types of Agriculture
- Other Type of Farming
- Agricultural Practices and Techniques
- Major Crops of the World
- Food Crops
- Oil Seeds
- Fibrous Crops
- Beverage Crops
- Commercial or Cash Crops
- Some Concepts Related to Agriculture
- Animal Husbandry
- Products of Animal Husbandry
- Animal Breeding
- Apiculture
- Fishing

21. Minerals and Energy Resources

- Introduction 202-217
- Minerals
- Physical Features of Minerals
- Types of Minerals
- Distribution of Minerals
- Conservation of Minerals
- Energy Resources
- Classification of Energy Resources
- Conventional Sources
- Non-Conventional Sources

22. Major Industries and Industrial Regions of the World 218-235

- Industries
- Classification of Industries
- Based on Size
- Based on Input/Raw Materials
- Based on Output/Product
- Based on Ownership
- World Industrial Regions
- Major Industries of World
- Iron and Steel Industries
- Cotton Textile Industries
- Woolen Textile Industry
- Sugar Industry
- Synthetic Rubber Industry
- Information Technology Industries
- Industrial Machinery Industries
- Transport Equipment Industries
- Glass Industry
- Other Industries

23. Transport and Communication

- Transport 236-248
- Land Transport
- Water Transport
- Air Transport
- Communication
- Satellite Communication
- Cyber Space : Internet
- Global Positioning System (GPS)

24. Population and Urbanisation

- World Population 249-264
- Factors Affecting Population Distribution
- Population Density
- Densely Populated Regions of the World
- Population Change
- Trends in Population Growth
- Demographic Transition
- Stages of Demographic Transition
- Age Pyramids
- Sex Composition
- Urbanisation
- Causes of Urbanisation
- Classification of Urban Settlement

- Stages of Urbanisation
- Types of Urban Settlements
- Classification of Town/Cities
- Problems of Urbanisation
- Urbanisation in India

25. Races and Tribes 265-272

- Evolution of Human
- Races of the World
- Tribes of the World

26. Regional Geography 273-307

- Asia
- Africa
- Australia
- South America
- Europe
- Antarctica

INDIAN GEOGRAPHY

1. India A General Introduction

- Introduction 308-317
- Geographical Location and Extension
- Political and Administrative Divisions
- Neighboring Countries
- India and the World
- The International Border Lines of India

2. Geological Structure 318-324

- Introduction
- Geological Structure of India
- Classification of Indian Rocks

3. Physiography of India 325-342

- Introduction
- The Great Himalayas of North
- Classification of Himalayas
- Significant Features of Himalayas
- The Great Plains of North India
- Regional Division of Great Plain of India
- The Peninsular Plateau
- The Central Highlands
- Eastern Plateau
- North- Eastern Plateau
- The Indian Desert

- The Coastal Plains
- Western Coastal Plains
- Eastern Coastal Plains
- The Islands
- Lakshadweep Islands
- Andaman and Nicobar Islands
- Other Islands

4. Drainage System of India 343-356

- Introduction to Drainage
- Drainage Pattern of Rivers
- Drainage System
- Drainage System of Indian Rivers
- The Himalayan Drainage System
- The Peninsular Drainage System
- Inland Drainage
- Inter-state River Water Disputes
- National Water Grid
- National River Linking Project Plan
- Lakes
- Waterfalls

5. Climate of India 357-368

- Introduction
- Differences between Weather and Climate
- Factors Influencing Indian Climate
- Theories Related to Origin of Indian Monsoon
- Seasons of India
- Monsoon
- Jet Streams
- Rainfall Distribution of India
- Climatic Regions of India

6. Soils of India 369-378

- Introduction
- Process of Soil Formation
- Factors of Soil Formation
- Major Soils of India
- Alluvial Soils
- Red Soils
- Black or Regur Soils
- Arid and Desert Soils
- Mountain Soil
- Laterite or Lateritic Soil
- Saline and Alkaline Soils
- Forest Soils

- Karewa Soil
- Peaty and Marshy Soils
- Soil Erosion and Degradation
- Soil Erosion
- Soil Degradation
- Soil Conservation

7. Natural Vegetation 379-385

- Natural Vegetation in India
- Factors Affecting Natural Vegetation
- Forest
- Classification of Forest in India
- Government Initiatives for Forest Conservation
- National Forest Policy, 1952
- National Bamboo Mission
- Forest Conservation Act, 1980
- Indian State of Forest Report, 2021
- Social Forestry
- Types of Social Forestry

8. Agriculture and Animal Husbandry 386-401

- Agriculture
- Factors Affecting Indian Agriculture
- Types of Indian Agriculture/Farming System
- Green Revolution
- Major Crops In India
- Food Crops
- Commercial Crops
- Beverage Crops
- Horticulture
- Animal Husbandry
- Livestock
- Poultry Farming
- Pisciculture
- Sericulture
- Apiculture

9. Irrigation and Multi- Purpose Project 402-411

- Irrigation
- Types of Irrigation Projects
- Modern Methods of Irrigation in India
- Sources of Irrigation
- Multi -Purpose Projects in India
- National Water Grid Mission

MagBook

10. Mineral Resources 412-420

- Introduction
- Classification of Mineral Resources
- The Mineral Belts of India
- Distribution of Minerals
- Conservation of Mineral Resources

11. Energy Resources 421-430

- Introduction
- Classification of Energy Resources
- Conventional Resources
- Non-conventional or Renewable Resources
- Energy Parks in India
- India's Integrated Energy Policy

12. Industries in India 431-444

- Introduction to Industrial Development
- Industrial Development before Independence
- Factors Affecting Location of Industries
- Major Industries in India
- Mineral Based Industries
- Oil Refinery Industries

- Agro Based Industry
- Engineering Industry
- Chemical Industry
- Forest Based Industries
- Other Industries
- Industrial Regions of India
- Major Industrial Regions of India
- Minor Industrial Regions in India
- Industrial Policy, 1991

13. Transport and Communication 445-463

- Introduction
- Modes of Transportation (Land, Water, Air)
- Communication
- Postal Services
- Telegraph Services
- Telecommunication
- Mass Communication
- Trade
- India Trade Promotion Organisation

14. Population and Urbanisation in India 464-474

- Population of India
- National Population Policy

- Types of Population Growth Rates
- Population Growth and Growth Rates
- Population Growth Since 1901
- Census 2011
- Demographic Composition
- Demographic Dividend
- Settlements and Urbanisation
- Rural Settlements
- Urban Settlements

15. Races and Tribes 475-483

- Races of India
- Scheduled Tribes
- Tribal Regions
- Major Tribes in India
- Census 2011 : Scheduled Tribes

16. Indian States and Union Territories 484-514

- Indian States
- Union Territories

Appendix 515-528

Mains Exam Paper 2022-2015 529-531
