

Let's Begin Our Journey

Part A: Introduction to Geography	1-18	9. Air Pressure and Atmospheric Circulation	91
1. Evolution of the Earth	1	• Atmospheric Pressure	91
• Geological Time Scale (GTS)	3	• World's Pressure Belts	92
2. Motions of Earth and Latitudes & Longitudes	7	• Atmospheric Circulation	97
• Earth's Rotation	7	• Classification of Winds	99
• Earth's Revolution	8	• Jet Streams	105
• Solstices and Equinoxes	9	10. Humidity and Precipitation	107
• Lunar vs Solar Eclipse	10	• Humidity	107
• Latitude	12	• Evaporation	109
• Longitude	15	• Condensation	110
Part-B: Geomorphology	19-69	• Precipitation	116
3. Earth's Interior	19	11. Airmass, Fronts and Cyclones	121
• Seismic Waves	20	• Air mass	121
• Structure of Earth	24	• Fronts	123
• Geomagnetic Field	27	• Tropical Cyclones	126
4. Distribution of Oceans and Continents	30	• Temperate Cyclones	131
• Characteristic Features	30	• Tropical vs Temperate Cyclones	133
• Continental Drift Theory	31	• Anti-Cyclone	135
• Convectional Current Theory	34	12. World Climatic Regions	136
• Sea Floor Spreading	35	13. Indian Climate	143
• Plate Tectonic Theory	37	• Factors influencing the Climate of India	143
• Movement of the Indian Plate	43	• Inter-Tropical Convergence Zone (ITCZ)	145
5. Earthquakes and Volcanoes	44	• Role of the Himalayas and Tibetan Plateau	146
• Earthquakes	44	• Role of the Jet Streams	147
• Types of Earthquakes	45	• El-Nino and Indian Monsoon	148
• Distribution of Earthquakes	47	• Indian Ocean Dipole (IOD)	151
• Seismic Zones of India	48	• Nature of Indian Monsoon	152
• Volcanoes	51	• Distribution of Rainfall	154
• Volcanic Landforms	53	• Climatic Regions	156
• Intrusive Volcanic Landforms	56	Part-D: Oceanography	158-188
• Distribution of Volcanoes	57	14. Relief Features of Ocean Floor	158
6. Landforms and their Evolution	59	• Hydrological Cycle	158
• Geomorphic Process	59	• Relief Features of Ocean Basins	160
• Classification of Mountains based on their origin	61	15. Temperature and Salinity	164
• Fold Mountains and Plate Boundaries	64	• Oceanic Water Temperature	164
• Erosion and Deposition	66	• Vertical Distribution of Temperature	166
Part-C: Climatology	70-157	• Horizontal Distribution of Temperature	167
7. Composition and Structure of Atmosphere	70	• Salinity of Oceanic Water	168
• Composition of the Atmosphere	70	• Distribution of Oceanic Salinity	170
• Structure of Atmosphere	72	16. Oceanic Circulation – Tides and Ocean Currents	172
8. Insolation, Heat Budget and Temperature	76	• Waves	172
• Insolation	76	• Tides	174
• Heat Balance and Heat Budget	80	• Ocean Currents	178
• Albedo of the Earth	83	• Major Ocean Currents	180
• Distribution of Temperature	84	• Effects of Ocean Currents	181
• Temperature Inversion	86	17. Coral Reefs and UNCLOS	182
• Heat Zones of the Earth	89	• Coral Reefs and Atoll	182
		• Coral Bleaching	185
		• UNCLOS	186
