Contents

1.	Number System Types of Number Divisibility and Remainder Word Problems Based on Numbers Unit's Digit	1-23	7.	Ratio and Proportion Properties and Rule of Ratio and Proportio Divide of Sum Word Problems Based on Ratio Coins/Notes	107-137 n
2.	Miscellaneous Fraction Simple Fractions Decimal Fractions Comparison of Fractions	24-34	8.	Average Average of Numbers Included/Excluded/Correct average in a Average of Weight, Age and Marks Average Salary/Expenditure/Temperature/	138-167 Group /Runs
3.	Word Problems Based on Fractions Square-Square Root and Cube-Cube Root	35-48	9.	Problems Based on Ages Ratio	168-176
	Square-Root Cube Cube-Root Miscellaneous		10.	Percentage Basic Concept of Percentage Increase/Decrease in Quantity Marks/Votes to get in Examination/Election	177-221
4.	Indices and Surds Indices Surds Comparison of Indices and Surds	49-67		Increase/Decrease in the Cost/Consumption of Items Income-Expenditure and Savings Number of Persons/Days in Examination and any Place Percentage Change of Value After <i>n</i> vr and Before <i>n</i> vr	
5.	HCF and LCM HCF	68-84	11.	Miscellaneous Profit and Loss	222-264
	LCM Relation of Two Numbers and their HCF and LCM			Basic Formulae and Item Loss/Over Head C Profit/Loss on Selling Price/Cost Price	harges
6.	Simplification 'BODMAS' Rule Algebraic Formulae	85-106		When Cost Price and Selling Price Given/As in Ratio When an Article is Sold or Bought at Less/M any price), for Real Price	sked Nore (at

	When to Bought <i>x</i> Items for ₹ <i>m</i> to Sold <i>y</i> Items for ₹ <i>n</i>					
	When the Article was Sold Many Times					
	Profit/Loss is Equal to Selling/Cost Price of <i>x</i> Articles					
	When Cost/Selling Price of <i>x</i> -Articles is Equal to Cost/Selling Price of <i>y</i> -Articles					
	Two Articles Bought/Sold at same Cost/Sel	ling Price				
	Different					
	False Weight					
When Profit Percent Equal (Numerically) to Cost Pr						
12.	Discount	265-296				
	Simple Discount					
	Successive Discounts					
13.	Partnership	297-303				
	Distribution of Profit/Share of Profits					
	Find the Ratio of Profit/Share of Profits					
14.	Find the Ratio of Profit/Share of Profits Mixture and Alligation	304-315				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture	304-315				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture	304-315				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixtu	304-315 ure				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixtu Profit and Loss	304-315 ure				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixtu Profit and Loss Replacement of Mixtures <i>n</i> Times	304-315 ure				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixtu Profit and Loss Replacement of Mixtures <i>n</i> Times Simple Interest	304-315 ure 316-335				
14. 15.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixtu Profit and Loss Replacement of Mixtures <i>n</i> Times Simple Interest Simple Interest	304-315 ure 316-335				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixtu Profit and Loss Replacement of Mixtures <i>n</i> Times Simple Interest Simple Interest If Amounts/Rates are Different	304-315 ure 316-335				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixtu Profit and Loss Replacement of Mixtures <i>n</i> Times Simple Interest Simple Interest If Amounts/Rates are Different Sum of Money Becomes <i>n</i> Times Itself After	304-315 ure 316-335				
14.	Distribution of Profit/Share of Profits Find the Ratio of Profits Mixture and Alligation The Ratio of Quantities in a Mixture The Percentage of Quantity in the Mixture The Weight/Capacity of Quantity in a Mixture Profit and Loss Replacement of Mixtures <i>n</i> Times Simple Interest Simple Interest If Amounts/Rates are Different Sum of Money Becomes <i>n</i> Times Itself After If know Amount at Various times/Rates Inst	304-315 ure 316-335 Sometime tallment				

16.	Compound Interest	336-363	
	When the Rate is Compounded Annually		
	When the Rate is Half-yearly/ Quarterly/n-Monthly		
	Both CI and SI		
	When the Amount be <i>n</i> Time for <i>t</i> years		
	Installment		
17.	Time and Work	364-408	
	Basic Concept of Time and Work		
	Efficiency of Person		
	When a Person Include/Leave to Work betw During the Work	veen	
	Work-Time Formula and Unitary Method		
	When work of <i>m</i> Persons of a Type is Equal	to n	
	Persons of Second types		
	Work and Wages		
18.	Pipes and Cisterns	409-420	
	Basic Concept		
	When any Pipe is Closed/Open in between Work period		
	When Pipes are Opened/Closed Alternately	/	
	Capacity and Leak in Cistern		
19.	Speed, Time and Distance	421-449	
	Simple Motion of any Person/Object		
	Average Speed		
	To more Changed of Normal Speed		
	Relative Motion of Two Persons/Objects		
	Miscellaneous		

20.	Problems Based on Trains	450-460
	When the Train Crosses one/more Stational	ry Objects
	Objects	
21.	Boats and Streams	461-472
	Swimmer (a Person)	
	Boat/Steamer	
22.	Algebra	473-525
	The Properties of Algebraic Expressions	
	Find the Value of Expressions	
	Algebraic Equations	
23.	Geometry	526-617
	Lines and Angles	
	Triangles	
	Quadrilateral and Polygon	
	Circle and Cyclic Quadrilateral	
24.	Coordinate Geometry	618-625
	Certesian Coordinate	
	Straight Line	
25.	Area and Perimeter	626-671
	Area and Perimeter of Triangles	
	Area and Perimeter of Quadrilaterals	
	Area and Perimeter of Circle	
	Two or More Figure	
	Percentage Changed in Area and Perimeter	
26.	Surface Area and Volume	672-727
	Area/Volume of Cube and Cuboid	
	Volume and Surface Area of Cylinder	

Volume and Surface Area of Cone and its Frustum Volume and Surface Area of Sphere and Hemisphere Prism and Pyramid **Combined Figures** 27. Trigonometry 728-793 Trigonometric Ratios and Trigonometric Identities Find the Value of Trigonometric Expression To Solve the Trigonometric Equations Height and Distance 28. Statistics 794-797 Mean Median Mode Mean, Median and Mode Miscellaneous 29. Data Interpretation 798-899 Table Line Graph Bar Graph Pie-Chart Mixed Graph 30. Miscellaneous 900-904 Progressions Probability Permutation and combination Circle **Properties of Triangle**
